Product short description:

vxšxh cca 820x1700x600

Product description:

The "HOBBY" workbench is the "light" version of our professional workbenches. It is delivered in individual parts, securely packed in a cardboard box and can be assembled quickly and easily. This means that transport by car is also possible. The frame, the drawers and the lockable storage space with door are made of 1mm thick sheet steel, powder-coated with high-quality paint and solidly processed. The worktop consists of 27 mm thick solid wood (glued wood panel). This ensures a maximum load capacity of the entire workbench of up to 300kg. The drawer(s) have a height of 130 mm, are guided in stable ball runners and have high-quality plastic handles. The door of the cupboard (equipment variant) is equipped with a cylinder lock, for which two keys are supplied. The legs of the workbench are adjustable in height to a certain extent in order to enable a secure and level position even on uneven floors.

Product features:

height mm	820 mm
width mm	1700 mm
depth mm	600 mm
weight kg	34 kg
load capacity each draw kg	
number of drawers	9
nosnost dílenského stolu	300 kg rovnoměrné zatížení
počet dveří dílenské skříňky	jednodvéřové
